Ozan Sozuoz, Frontend Developer

Motivated and excited to begin a new journey with a company that provides growth and values collaboration and teamwork. Adaptable to all technologies and strive for the success of the company and myself.

Enough formality - let's chat!

Employment History

Front End Developer at Two Maids, Birmingham

December 2020 — Present

- Developed and managed a custom Next.js website, resulting in increased lead generation, improved SEO, faster page speeds, and enhanced user experience for over 100 Two Maids locations.
- Consolidated 100 web pages and domains into a single, streamlined platform using React.js, TypeScript, and JavaScript.
- Created and deployed three custom React projects, utilizing React, JavaScript, HTML, and CSS, for internal company-wide use, including a real-time map displaying users and locations with key company performance metrics, a leaderboard for individual locations, and a custom photo gallery.
- Maintained and improved custom scheduling software utilizing Python, Django, and implementing APIs. Optimized UI and troubleshoot issues within the legacy codebase.
- Successfully integrated a new third-party scheduling software into the Next.js website and ensured uninterrupted service for franchise locations during the transition.
- Troubleshoot React Native application bugs and UI fixes.

Front End Intern at Globme - Idenfit, Istanbul

July 2020 — September 2020

- Developed solutions to customer-submitted bug tickets alongside an experienced senior developer.
- Participated in business requirements discussions, design sessions, and functional specification reviews with the technology teams.
- Maintained up-to-date knowledge of current coding principles, tools, technologies regarding efficient front-end development, specifically Vue.js.

Education

Computer Science, Fort Hays State University, Kansas

January 2015 — January 2019
